past 1500 it sputters out and will die. It doesnt have any power when driven. I can hear a vaccuum leak coming from either the canister or canister close valve.

2000 Kia Sportage No Power: Engine Performance Problem ...

SOURCE: 2000 kia sportage ex, 4 cyl. Yes there is a sensor that controls Fuel/air ratio.It's called a MAF (mass air flow sensor) But I think you should have the EGR (Exhaust gas recirculation)valve checked and The TPS (throttle position sensor)maybe dirty. Although may things can cause this issue,I would look at the items above first.

So when it was time to replace I decided on a 4x4. The Sportage seemed the best value for money on the market and I could afford the top of the range. After 6 months I love the car. It is a joy to drive and it has loads of gadgets all of which are very useful. This is my first diesel car and I really like that.
