Linkages In
Manufacturing
Backward (or upstream)
linkages . Backward

linkages refer to inputs
to the oil, gas and
mining projects from the
national economy,
which can include local
community-focussed
procurement, such as
security, clothing and
food supplies and high
value-added items, such

Online Library Backward And

as capital machinery and
equipment.

Linkages In Manufacturing

Types of Linkages |
Economic Linkages |

Extractives Hub

Backward linkages
include coal and iron
ore mining. Forward
linkages include items
such as canned goods.

While this industry has
strong linkages, it is not
a good leading sector.

Online Library Backward And

Forward industry that has a high capital/output ratio and causes significant costs to other businesses has the potential to hurt the developing economy more than it helps it. A better leading sector would be the beer industry. [citation needed] Linkages and last industries
