hostile to seemingly innocent citizens expressing their right of free speech. We have heard over and over these six powerful words: How did our nation get here? This book is designed to explain EXACTLY how we got here. You will become thoroughly aware of the plan that was set in motion, who designed it, when it began and the mechanisms used to move us to their desired end and, finally, where it will take us. You will discover that the separation of Americans by race or wealth or gender is a myth and meet the groups responsible for those myths. After reading The Blueprint for Two Americas, every news report, school board issue or city council agenda will be viewed with the perspective of the Humanist Manifestos in mind. You will be awakened to the destruction that this plan has wrought. Just as a building has a set of blueprints that direct each specialty worker to their part in bringing about the finished product, this social re-engineering has a set of blueprints, and the new society it envisions is nearly complete. This book reveals THE BLUEPRINT FOR THE TWO AMERICAS.
