This is a new release of the original 1949 edition.

"This book was written because of the urgent need to gain a deeper understanding of the widespread decline of democracy and the unnerving movement toward dictatorship in the 21st century. We are confronted by serious and unexpected challenges to our freedoms and human rights. We need to gain a deeper understanding of threats to democracy in the context of globalization, the increasing economic and cultural integration of societies around the world, and the international populist backlash that is sweeping across national boundaries. The target audience for this book includes the lay public and academics interested in better

File Type PDF Dictators Threaten World Peace

Understanding the psychology of dictatorship and threats to democracy in the United States and around the world; and students and teachers in courses on politics, government, and political psychology. The book is structured into four parts comprising 10 chapters. Part I discusses political patterns and reversals to dictatorship. Part II explores the relationship between freedom and dictatorship. Part III describes the relationship between globalization and dictatorships. Part IV examines the factors that continue to pull us toward dictatorship and explore solutions to the current global trends away from democracy. The afterword presents the relationship between first-order change, second-order change, and dictatorship."--Preface. (PsycINFO Database Record (c) 2019 APA, all rights reserved).

Freedom in the World is the standard-setting comparative assessment of global political rights and civil liberties. The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories.

Identifies the major weaknesses in the current United Nations system and proposes fundamental reforms to address each. This title is also available as Open Access.

This book presents a comprehensive study of the most famous and spectacular instance of inflation in modern industrial society--that in Germany during and following World War I. A broad, probing narrative, this book studies inflation as a

File Type PDF Dictators Threaten World Peace

strategy of social pacification and economic reconstruction and as a mechanism for escaping domestic and international indebtedness. The Great Disorder is a study of German society under the tension of inflation and hyperinflation, and it explores the ways in which Germany's hyperinflation and stabilization were linked to the Great Depression and the rise of National Socialism. This wide-ranging study sets German inflation within the broader issues of maintaining economic stability, social peace, and democracy and thus contributes to the general history of the twentieth century and has important implications for existing and emerging market economies facing the temptation or reality of inflation.
