download.truyenyy.com*

The HDR-FOX T2 has almost got the same user interface as the 2000T. The most obvious differences are with the remote. The 2000T has fewer buttons which for some missing buttons means that the functionality is not there (e.g. book marking, slow motion, sleep, PIP) and for other missing buttons means that it can be harder to get to the function (e.g. aspect ratio, HD format).
