In the second of the River Cottage Handbook series, Pam Corbin explains how to turn Britain's seasonal gluts of fruit, vegetables, flowers and herbs into delicious preserves to enjoy all year around. Preserving is a centuries-old way to make the most out of every season, stretching the more bountiful months into the sparser ones - and what's more, it is fun, rewarding and easy to learn. Explaining the history, science and basic processes of preserving, Pam Corbin guides us through a world of jams, jellies, butters, curds, pickles, chutneys, cordials, liqueurs, vinegars and sauces that can be made from local produce throughout the year. She includes 75 recipes, covering everything from traditional favourites such as raspberry jam, lemon curd, quince cheese and sloe gin, to fresh new combinations such as apple butter, cucumber pickle and nettle pesto. The handbook includes seasonable tables, regional maps, flow charts of all the preserving processes and full-colour photographs throughout, and is completed by a directory of equipment and useful addresses. With a textured hard cover and an introduction by Hugh Fearnley-Whittingstall, Preserves is a concise and inspiring guide to an age-old art for kitchen beginners and keen preservers alike.

"Tells how America, since the end of World War II, has turned away from its ideals and goodness to become a match setting the world on fire" (Seymour Hersh, investigative journalist and national security correspondent). World War II marked the apogee of industrialized "total war." Great powers savaged one another. Hostilities engulfed the globe. Mobilization extended to virtually every sector of every nation. Air war, including the terror bombing of civilians, emerged as a central strategy of the victorious Anglo-American powers. The devastation was catastrophic almost everywhere, with the notable exception of the United States, which exited the strife unmatched in power and influence. The death toll of fighting forces plus civilians worldwide was staggering. The Violent American Century addresses the US-led transformations in war conduct and strategizing that followed 1945--beginning with brutal localized hostilities, proxy wars, and the nuclear terror of the Cold War, and ending with the asymmetrical conflicts of the present day. The military playbook now meshes brute force with a focus on non-state terrorism, counterinsurgency, clandestine operations, a vast web of overseas American military bases, and--most touted of all--a revolutionary new era of computerized "precision" warfare. In contrast to World War II, postwar death and destruction has been comparatively small. By any other measure, it has been appalling--and shows no sign of abating. The author, recipient of a Pulitzer Prize and a National Book Award, draws heavily on hard data and internal US planning and pronouncements in this concise analysis of war and terror in our time. In doing so, he places US policy and practice firmly within the broader context of global mayhem, havoc, and slaughter since World War II--always with bottom-line attentiveness to the human costs of this legacy of unceasing violence.

"Dower delivers a convincing blow to publisher Henry Luca's benign 'American Century' thesis." --Publishers Weekly

Though the Serbian pack has been brought to heel thanks to the downfall of their Alpha, the war is far from over. Desdemona, a witch of unfathomable power, has escaped the wolves' wrath, but she will not go quietly into the night. She takes refuge in a place where even the smallest sliver of light does not dare to enter. Though she had to flee, she has not given up on the treasure she wishes to acquire. Her depravity knows no bounds; she's even willing to search for the one who can assist her in opening a Veil that has not been opened in millennia - with good reason: the danger is incalculable. Meanwhile, there are major changes rippling through the Romanian Grey wolves. Decebel has become Alpha to the Serbian pack in an effort to unite the Canis lupis species. Their numbers are dwindling in the wake of the shortage of true mates and lack of offspring. The wolves are beginning to lose faith and darkness seems to be crashing in on them from all sides. But the winds of change are blowing, changes that will alter the future of not only the Canis lupis, but of another ancient race as well. Amidst all of this, Sally is continuing to come to terms with her relationship with the playful, charming, flirtly, unbelievably handsome bartender - who happens to be a member of the Romanian pack. If all that weren't enough, the Fates have decided to pay a little visit to Jen. It's time to collect. She cheated the Fates of a life, her life. Now they want what they are due. The problem? It's more than Jen is willing to pay. Yes, the war is indeed far from over.

Historian John W. Dower's celebrated investigations into modern Japanese history, World War II, and U.S.-Japanese relations have earned him critical accolades and numerous honors, including the Pulitzer Prize, the National Book Award, and the Bancroft Prize. Now Dower returns to the major themes of his groundbreaking work, examining American and Japanese perceptions of key moments in their shared history. Both provocative and probing, Ways of Forgetting, Ways of Remembering delves into a range of subjects, including the complex role of racism on both sides of the Pacific War, the sophistication of Japanese wartime propaganda, the ways in which the nuclear bombing of Hiroshima and Nagasaki is remembered in Japan, and the story of how the postwar study of Japan in the United States and the West was influenced by Cold War politics. Ways of Forgetting, Ways of Remembering offers urgent insights by one of our greatest interpreters of the past into how citizens of democracy should deal with their history and, as Dower writes, "the need to constantly ask what is not being asked."

Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little games', Beaton referred to him in 1975 as "unquestionably the most interesting fashion photographer in Paris today". His work was said to have represented 'the look of an era - glamorous, hard-edged, cleverly spiced with vulgarity... rich with implied narratives and strong erotic undercurrents'
