The Guide evolved from the need to have an application that could organize information and ideas in a hierarchical, tree-like structure. Tree-based structures are frequently employed to manage information through a "divide-and-conquer" approach, wherein each level of the tree represents a further level of specialization of the parent-level topic — the best example of this being a book.

That Which Should Not Be is a literary pastiche that pays loving tribute to the writings and mythos of H.P. Lovecraft. In the author's attempts to mimic Lovecraft's style, he sometimes veers unintentionally into the realm of parody (I'm thinking specifically of the writing in the overblown opening chapters).
