A jaw-dropping story of how a girl from the suburbs ends up in a prince's harem, and emerges from the secret Xanadu both richer and wiser
At eighteen, Jillian Lauren was an NYU theater school dropout with a tip about an upcoming audition. The "casting director" told her that a rich businessman in Singapore would pay pretty American girls \$20,000 if they stayed for two weeks to spice up his parties. Soon, Jillian was on a plane to Borneo, where she would spend the next eighteen months in the harem of Prince Jefri Bolkiah, youngest brother of the Sultan of Brunei, leaving behind her gritty East Village apartment for a palace with rugs laced with gold and trading her band of artist friends for a coterie of backstabbing beauties. More than just a sexy read set in an exotic land, *Some Girls* is also the story of how a rebellious teen found herself-and the courage to meet her birth mother and eventually adopt a baby boy.

The Prince and I: Miss Olive By: William A. Stricklin
William A. Stricklin's governess from 1938 to 1946, Miss Olive, was previously one of the servants for the daughter and two sons of her widowed friend Sangwan. The oldest son, at nine-years-old, was proclaimed King of Siam Ananda Mahidol Rama VIII in 1935. On June 9, 1946 King Ananda was found shot in the head four days before returning to Switzerland to finish his doctorate degree. His younger brother, Bhumii Adulyadej then ascended the throne as King of Siam Rama IX. As Miss Olive left Siam in 1937, she was not one of the three servants who were falsely executed for King Ananda's murder. Miss Olive feared telling her side of the story until the passing of King Rama IX in 2016. Respectful of the terms of the "non-fiction contract," where facts have been forever lost to history,Stricklin presents The Prince and I - Miss Olive as a historical novel. Readers will observe that the book is almost entirely non-fiction and, in any event, remains a fascinating unsolved murder mystery

"Dave King and Richard Ekins are the leading world sociologists in this field. The book brings together a brilliant synthesis of history, case studies, ideas and positions as they have emerged over the past thirty years, and brings together a rich but always grounded account of this field, providing a state of the art of critical concepts and ideas to take this field further during the twenty first century." - Ken Plummer, University of Essex
"An outstanding survey of the evolution of trans phenomena, splendidly written, highly informative, scholarly at its best, yet easy to read even for those neither trans nor sociologist. Ekins and King, experts in the field, unroll the panoramas of sex, gender, and transgenering that have evolved during the last decades. For everyone wanting to understand the interaction of women and men and of those who cannot or will not identify with either of these two categories, reading this book is a must, and a real pleasure." - Friedmann Pfäefflin, University of ULM
This groundbreaking study sets out a framework for exploring transgender diversity for the new millennium. It sets forth an original and comprehensive research and provides a wealth of vivid illustrative material. Based on two decades of fieldwork, life history work, qualitative analysis, archival work and contact with several thousand cross-dressers and sex-changers around the world, the authors distinguish a number of contemporary transgendering 'stories' to illustrate: The binary male/female divide
The interrelations between sex, sexuality and gender
The interrelations between the main sub-processes of transgendering.
Wonderfully insightful, The Transgender Phenomenon develops an original and innovative conceptual framework for understanding the full range of the transgender experience.

Less than twelve hours before take-off, after her brother called from far-off California, her place of original derivation, Gwendolyn booked a flight on Southwest Airlines, the only coterie of the aerial velocity where she was able to muster up a ticket for this kind of urgency. Urgency, because you see, Gwendolyn's Dad of forty odd years had just suffered a massive heart attack, declared legally dead for approximately one half hour, and through the fortune or misfortune of modern technology, first responders were able to bring him back to life, from a legal perspective only, the second Friday in June 2016 between the hours of 10:20 and 10:50 a.m. By the time Gwendolyn received news of this, it was Monday, and she could not have been in a higher geographical location in Montana, on a National Bison Range, no less, crowded by snow covered mountain peaks. Returned home she did to Florida, on Tuesday. She booked a flight Wednesday night for Thursday before sunrise, arriving in Los Angeles at 9:50 a.m. Not knowing what to expect, and hoping for the best, yet in her heart, she knew... She knew she would be visiting her dad on his deathbed, and more than likely assisting in the advising of "pulling the plug," from life support. From Tampa to Las Vegas was tough: Flying out of tropical depressions always are. Yet, from Las Vegas to Los Angeles proved to be the last thing Gwendolyn had expected, as she seized the last seat on the plane in the very first row, left side, middle seat, between an old man in the aisle, and the window seat already inherited by a man, who was quite attractive, with model-type healthy hair, the darkest blue eyes she had ever seen, in his thirties, painfully fit, and although she found out later around the baggage belt, about 6'7" in height, who preoccupied his time by reviewing the Wisconsin volleyball athletes he coached on his portable electronic tablet. "Is this seat taken?" Gwendolyn asked both men, to her immediate left, referring to the seat in between them, yet more directed toward the man by the window.

From Pulitzer Prize-winning journalist and bestselling author Ron Suskind comes a startling look at how America and the West lost their way, and at the struggles of their respective governments to reclaim the moral authority on which their survival depends. From the White House to Downing Street, and from the fault-line countries of South Asia thro the sands of Guantanamo, Suskind offers an astonishing story that connects world leaders to the forces waging today's shadow wars and to the next generation of global citizens. Tracking down truth and hope, Suskind delivers historic disclosures with this emotionally stirring and strikingly original portrait of the post 9-11 world.

Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

"Kurt and Win Lawrence have spent their young lives taking care of their alcoholic mother. When a devastating fire decimates their home, the younger brother, Win, becomes a reluctant media hero, but the brothers harbor a terrible secret. As the media moves closer and closer to the truth, Win, with the help of a female firefighter, Jo Judson, must make a choice between loyalty to his brother and revealing the truth. Ultimately, the insistent voice of Win's conscience leads him to his decision, raising questions about heroic actions that save lives and heroic actions toward others based on personal ethics. The story of Everyday Heroes raises three questions: What happens in the aftermath of a heroic event that is predicated on lies? How does the distorted truth of the media become more valid than reality? What are the consequences of the silencing of the emotional lives of young men?"—Publisher's Website.
